Maame De Veer

Junior C#/.Net Developer
Accra
maamelankar.deveer@gmail.com
+233 55 054 5599

My name is Maame Lankar De Veer. I am a Junior Software Developer. and I have a Bachelor's degree in Computer Science. I am interested in building web and desktop applications with C Sharp and Dotnet, mainly interested in building the backend architecture and systems for such applications.
I have a passion for games and love joining game jams and building simple games using the Unity Engine. I also love exploring APIs and building automated applications to utilize them, especially for social websites like Twitter, Discord and Telegram. As a junior developer, I am dedicated to writing secure code, developing efficient and user-friendly applications. With experience in coding, testing and debugging, I am confident in my ability to contribute to any software development team. I am eager to learn new technologies and techniques, and I am committed to continuously improving my skills as a developer.

Willing to relocate: Anywhere

Work Experience

Cyber Security Engineer Intern
National Communications Authority (NCA) - Accra, Greater Accra
November 2022 to Present

Currently completing my National Service at the NCA, working as service personnel in the cybersecurity division of the organization. Some of the tasks are:
• Writing reports on the various security issues discovered by the security engineering team
• Researching and reporting on findings to contribute to policy drafts
• Researching and writing reports on security vulnerability scanning software for mobile devices
• Conducted profiling and vulnerability checks for new and incoming mobile device models

IT Technician Intern
Valley View University - Oyibi, Greater Accra
March 2022 to June 2022

• Set up a file-sharing network, to send important information to other interns and the supervisor
• Troubleshot and fixed computers and hardware that were brought in
• Changed hard drives in system units and installed the Windows OS on them
• Setup a remote computer to communicate with other computers
• Assisted my supervisor in solving problems and requests from the various offices in the school

Content Writer And Analyst Intern
Techmarket Solution - Accra, Greater Accra
May 2021 to June 2021

• Wrote SEO-optimized content for the company blog
• Compiled analytics for the company blog and website using Google Analytics
• Compiled analytics for the company's various social media accounts

• Generated reports on all data gathered to determine if set targets were met and if any issues were found.
